The building is on left, half way down on a level with **AYORA** metro

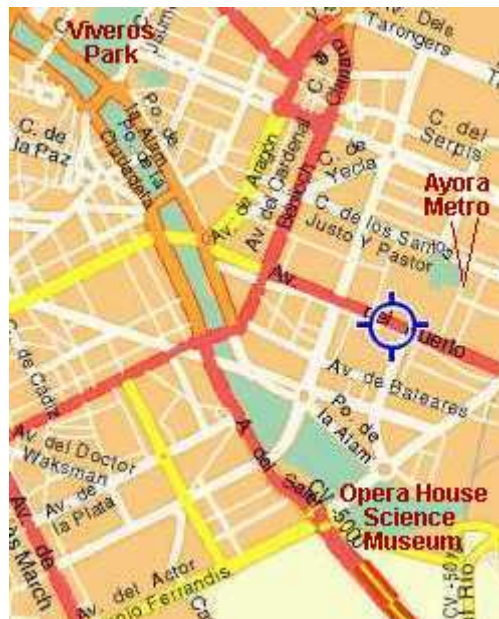

It is easy to spot as it is the only block with a dark red flat roof
As you get closer you will see it has unusual wooden slats on the balconies facing the road.

You have to go past it almost to the end of the road and then come back
Turn right just beyond in **Calle de la Industria**, where you can usually park
The entrance is to the right of a shoe shop (with very good prices).

The big key gets you in
The pointy key gets you into the flat
The large padlock key opens up the roof terrace.

METRO

The nearest metro is Ayora – 5 minutes up Calle de la Industria
